CWWCA Announces Program for Mid-Year Conference This July

**Friday, July 10, 2009**

11:00 - 11:30 am  CWWCA Board of Directors Only-Working Meeting
Noon - 1:00 pm  Registration
1:00 - 3:00 pm  “CWWCA Family Event” Historic Breckenridge Mine Tour at the Country Boy Mine***See Registration Sheet for Cost
1:00 - 3:00 pm  “The trickle up & trickle down effect of your hiring practices, how to hire well & avoid large & unnecessary claims. Steven G Smith, Front Range Insurance Group  2 Hrs CE
3:00 - 3:15 pm  Break
3:15 - 4:15 pm  “The Use of GPS in locating Water Wells” Nolan Lloyd, Chief Well Inspector, Division of Water Resources 1 Hr. CE And GPS******Practical Exercise-You Must Bring Your GPS Devices******
4:15 - 5:15 pm  “Water Well Construction Rules: Who’s Got The Ball And What Should Be Done With It?” Todd Hunter, Boulder GWS, LLC.  1 Hr. CE
6:00 - 7:00 pm  Supplier Sponsored Social Hour
7:00 - 9:00 pm  Dinner, Presentations

**Saturday, July 11, 2009**

7:00 - 8:00 am  Breakfast Buffet
8:00 - 9:00 am  “Solar Water Pumping Design-How to Apply” Dwight Patterson, GenPro Energy Solutions, LLC  1 Hr. CE
9:00 - 10:00 am  “Grouts-The Choice is Yours-Or is It?” Fred Rothauge, Quality Drilling Fluids, LLC  1 Hr CE
10:00 - 10:15 am  Break
10:15 - noon  Membership Meeting
Noon  Suppliers Meeting
6:00 - 9:00 pm  Informal social gathering Base 9 Lounge

**Sunday, July 12, 2009**

9:00 - noon  Board of Director Meeting/Working Breakfast

**HOTEL INFORMATION**

A block of rooms has been reserved at the **Beaver Run Resort, Breckenridge, CO**

******Make your reservations directly with the Hotel by June 20, 2009******

The toll-free phone number is **1-800-525-2253**

**Be sure to mention that you are with Colorado Water Well Contractors Association**

The group room rates are: (tax not included)

- Hotel Room $119.00
- Deluxe Studio $135.00
- One Bedroom Suite $145.00
- Colorado Suite $145.00
- Two Bedroom Suite $209.00

**PLAN TO JOIN US IN BRECKENRIDGE!!!!!**
Advertising Information

**Website Advertising**

Banner advertisements appear on the right of every page of the website. The advertisement rotates sequentially, so every ad will have equal display time. If the demand for banner advertisements warrants it, additional banners will be incorporated into the site.

**One year banner advertisement: $300.00**

If the advertiser is a CWWCA member, this fee also includes a free upgrade of your member directory listing.

Banner ads should be 150 pixels wide, and 150-300 pixels high. Ads must be submitted in .jpg format.

**Member directory upgrade**

CWWCA Members may choose to upgrade their listing in the searchable member’s directory.

Upgrading allows your listing to be displayed at the top of searches and sorts. It allows your listing to link to your website. And upgrading allows you to display your logo or picture of your choice with your listing.

**One year of Directory upgrade: $50.00**

Pictures for the listing should be submitted in .jpg format and should be 80 pixels high, by 80-160 pixels wide.

**DrillStem Advertising**

Advertising Rates for the Drillstem, A Quarterly Publication of CWWCA (published in March, June, September, and December)

President’s Letter

The year is half over, the busy season has begun and the mid-year conference will be upon us shortly. I am excited to see you all and to see what new things we can learn. The program committee has put together a unique regiment of speakers for our classes at the mid year. It will be nice to have some new ideas and fresh material. I hope we will see you there. It is a perfect chance to take the whole family on a mini vacation and get some of your CEUs, too.

These economic times can be tough; however if we look down the road we can see the light at the end of the tunnel. I am certainly not an economist, but I see some tell tale signs that things are moving forward again. As we hear on the news, Colorado’s economy is much stronger than some. After speaking with a number of you, I am aware that some are struggling more than others. Over the past few years we have seen some of our friends and colleagues struggle and some even go under. I like to think of this industry as a large family group - most of us know one another fairly well. If you are struggling, use the contacts you have made through CWWCA meetings and get advice from others in your industry that may not be in direct competition with you. If you are doing well in these tough times, take the opportunity to mentor someone who is struggling. Give them frank, unshielded advice on ways to improve what they have. As a group, if we pull together and help each other, we will emerge stronger.

I’m looking forward to a busy summer. If you have any questions or concerns or would like the CWWCA to address any issues, please contact your representative. We’re here to help you.

Sincerely,

John O’Brien
President CWWCA

Legislative Wrap-Up
By Diane Roth, Chuck Malick, Solomon Malick, Lobbyists for CWWCA

The 2009 legislative session came to a close in the early evening of May 6. It was a contentious year at the legislature, notably due to the downturn in state revenue. The legislature turned largely to fee increases and budget reductions in order to complete the budget plan for fiscal year 2009/2010.

One area that will not see fee increases are well permits. We previously reported on Senate Bill 216, the proposal to dramatically increase well permit fees to fund the state engineer’s office. Rep. Jack Pommer, D-Boulder who sits on the state’s budget committee sponsored the bill so that the office would be funded more by water well users and less by the general public.

SB 216 bill died in the House of Representative with rural legislators leading the efforts opposing the steep increases. Rep. Jerry Sonnenberg, R-Sterling was a vocal opponent of SB 216 due to the level of the fee increases, but he and other legislators were also concerned about the growing number of vacant positions, including water commissioners and division engineers in the state engineer’s office.

Another bill, House Bill 1308 was introduced by Rep. Kathleen Curry, R-Gunnison and Sen. Jim Isgar, D-Hesperus to help fund the office. HB 1308 would have put the state engineer’s office in the same category as other agencies within the Division of Natural Resources to receive funding from severance taxes paid by the oil and gas industry. That bill also died. Accordingly, the state engineer’s office funding was not changed and it remains funded largely from the state’s general fund and also existing fees.

The remainder of this article will summarize some of the other water-related bills we worked and tracked for CWWCA. The bills are posted at www.leg.state.co.us. Thank you for the opportunity to work for you.

2009 NGWA Ground Water Expo

Please join us!

On behalf of the National Ground Water Association, as well as the ground water industry in general, I’d like to personally invite you to join us at the 2009 NGWA Ground Water Expo taking place December 10-13 in New Orleans.

Now more than ever, it is imperative for all of us in the ground water industry to partner together so we can progress in finding new solutions to today’s new challenges. And there is no better place to do so than the Expo.

It’s here at Expo that professionals from all sectors of the industry—drilling and pump contractors, scientists and engineers, manufacturers, and suppliers—can come together in one convenient setting to discuss the means of how to best to prepare to move us forward in these uncertain times.

Attending the 2009 NGWA Ground Water Expo will allow you the opportunity to learn from industry leaders, earn your needed CEPs, network with your peers and make new friends, and discover the newest in technology. Not to mention having some fun along the way in The Big Easy!

To find out more about what all is being planned, check out the NGWA website, www.ngwa.org, and see for yourself all the many reasons you cannot afford to miss this event.

It has always been a pleasure to attend the past few CWWCA meetings. I hope I have been of some assistance to the CWWCA. I know that the groundwater industry has benefited from the efforts of CWWCA. I look forward to seeing you in New Orleans in December!

Best regards,

Alan Eades, CWD/PI
2009 NGWA President

GPS Field Exercise at the CWWCA Mid-year

The field exercise is an addition to the 1 CEU course “The Use of GPS in locating Water Wells” to be presented at the CWWCA Mid-year on July 10, 2009 by Nolan Lloyd. It is intended to utilize the information presented in the above class to find locations around the Beaver Run Resort campus using given coordinates, and to report the coordinates of given locations. This is to simulate finding well coordinates and reporting coordinates of well locations.

The format will be a GPS “scavenger hunt” where participants are provided a worksheet. Half of the exercises provide coordinates for a location then require the participant to answer a question about the location. The other half of the exercises will require participants to determine the coordinates of various locations.

The number of exercises will provide at least an hour of time including travel time to each location. The exercise worksheet will be able to be completed on the participants own, at any time from the end of the GPS class until the deadline at noon on Sunday, July 12.

For specific questions about the GPS Field Exercise please contact Jason Fegel at best@waterwell.cc or at 303-819-4429. For general questions concerning the CWWCA MidYear please contact Sherry Engleberg at execdir@waterwell.cc or at 303-759-2295. Thank you.

(1 Hour of Continuing Education has been requested for this Exercise. At the present time this 1 Hour is Pending)

You are invited to attend the 2009 Well Drillers JUBILEE. Integrated Water Systems: The Wave of the Future

Register today! It’s not too late to get the early bird registration fees.
A Full registration is $65.00 before June 30.

South Atlantic Well Drillers JUBILEE
P.O. Box 1290
New Market, VA 22844
Ph: 540-740-3329
Fax: 540-740-4556
Email: info@well-drillers.com
Web: www.well-drillers.com
Directs the Colorado Oil and Gas Conservation Commission to contract with the United States geological survey to develop and implement a baseline surface and ground water monitoring program in the Piceance structural basin area in Rio Blanco, Mesa, Delta, Garfield, and Gunnison counties to provide accurate and consistent water quality and quantity data to discern long-term water quality trends and to effectively conserve, protect, and manage water resources for beneficial uses as energy development and associated land and water use changes occur. On 1/21/2009, the House Committee on Agriculture, Livestock, & Natural Resources killed the bill.

HB 1142 - Water Conservancy Dist Director Election
Modifies the number of registered electors that must sign a petition in order to hold an election for a director of a water conservancy district. Eliminates the requirement that an elected director own real property. The House Committee on Agriculture, Livestock, & Natural Resources killed the bill on 1/28/2009.

HB 1159 - Water District Nonresident Director
Allows the members of the board of directors of a ground water management district to be owners of producing agricultural real estate located in the district in addition to resident taxpaying electors. The Governor signed the bill on 3/20/2009.

HB 1174 - Exempt Pre-1974 Well Depletions
Specifies that decrees for plans for augmentation entered in the South Platte river basin on or after the effective date of the act shall not require the replacement of out-of-priority depletions caused by pumping that occurred prior to March 15, 1974. Allows water judges to review all of the terms and conditions of a proposed amended plan. The Governor signed the bill on 3/25/2009.

SB 80 - Precipitation Collect Limited Exemptions
Authorizes the collection of precipitation from up to 3,000 square feet of a roof of a building that is primarily used as a residence and is not connected to a domestic water system serving more than 3 single-family dwellings, if the water thus collected is used for household purposes, fire protection, watering of animals/poultry, or irrigation of not more than one acre of lawn/garden. The Governor signed the bill on 4/22/2009.

SB 147 - Water Supply Plans Pre-2003 Depletions
Hodge Priola
Subject to existing procedures for the approval of substitute water supply plans, authorizes substitute water supply plans for the replacement of out-of-priority lagged depletions caused by pumping of wells included in decreed augmentation plans prior to January 1, 2003. Repeals the authorization on, and specifies that such plans shall expire by July 1, 2018. The Governor signed the bill on 4/9/2009.

CWWCA TWG June Meeting Recap

Attendance: Joe Meigs, Tim Crawford, Dave McElhaney, Jason Fegel, Peter O'Brien, Allan Robins, Andy Horn, Nolan Lloyd and Daniel Niemela

Location: Colorado Division of Water Resources, 1313 Sherman St., Denver, CO

Next TWG Meeting: Friday, September 25, 2009, 10:00 AM, Holiday Inn, Golden, CO, prior to the CWWCA Fall Board Meeting

State Budget Considerations
The DWR budget is particularly tight this year. Four furlough days have been announced this year and funding for the well water level monitoring program is uncertain.

Water Well Construction Rules
A brief update was provided regarding CWWCA’s review of the Water Well Construction Rules. The future focus of the CWWCA will be to prioritize review of the rules to specific areas, for example, grouting, annular space and casing size. There may be State budgetary limitations to implementing rule changes during the current economic downturn.

CWWCA Input on CE Course Approval
In the past, the CWWCA CE committee has not been copied on all CE approval requests. This administrative oversight has been remedied and the CWWCA representatives will receive CE approval requests in the future.

200 ft Well Location
Staring July 1st, the State will implement a policy allowing issuance of certain exempt well permits pursuant to a lot location. For these permits, the driller will have the latitude to locate a well within the designated lot, even if the location is greater than 200-feet from the permitted location. The actual location will need to be submitted on the Well Construction and Test Report. The purpose of this new policy is to reduce driller violations for exempt wells located greater than 200-feet from the permitted location, but on the correct lot.

Revisiting “Hands On”
The BOE’s Tim Decker has requested a matrix of “Hands on Experience” from the DWR staff, which specifies how many hours and how many wells or pump installations qualify for “Hands on Experience.” Dave McElhaney has drafted a description of “elements of Hands on Experience,” which recounts the history of this rule since 1996 and provides scenarios of acceptable “Hands on Experience,” focusing on experience operating equipment. This draft will be presented at the upcoming BOE meeting. The TWG noted that exceptions to clear examples of operational experience have most often confounded the BOE during licensing proceedings.

Apprenticeship Program
The CWWCA is encouraged to develop a driller and pump installer apprenticeship program. The DWR would be supportive of using this program as a path toward licensure and to address some of the “Hands On Experience” issues.

Continuing Education Requirements for Newly Licensed Contractors
The CWWCA will be sending a letter to the BOE and DWR recommending that newly licensed drillers and pump installers be allowed to apply all CE credits collected during the year in which they were licensed to renewal in the following year. The DWR believes that the BOE will implement this policy in time for contractors licensed in 2009.

Future Topics
Water Well Construction Rules

The meeting adjourned at 9:30 AM.

Respectfully submitted by Daniel Niemela.

CWWCA BULLETIN BOARD

The CWWCA implemented a Bulletin Board on the CWWCA website. The Bulletin Board will allow CWWCA members to share tips and ideas with other members, ask and answer questions and post classified and equipment wanted requests. The Bulletin Board is linked to the CWWCA website, just click on “Bulletin Board” on the left side of the CWWCA homepage: www.cwwca.org.

You will need a login and password to participate in the bulletin board. Login and password can be set up by clicking on “register” near the top of the bulletin board page. We are hopeful that the CWWCA Bulletin Board will offer a new way for members to communicate and share ideas.

Buck Lively Scholarship Winners

The Scholarship Committee recommended to the CWWCA Board of Directors that eight applicants for the Buck Lively Scholarship receive a $1,000.00 Buck Lively Scholarship. Scholarship recipients are:

- Kyla Blouin, University of Colorado, Colorado Springs. Currently a sophomore enrolled in the Beth-El School of Nursing.
- Tyson W. Sweetser, Western State College. In the Fall of 2009 will complete his education with a major in Outdoor Leadership and Instruction and a minor in Business.
- Nicole Weyerman, University of Colorado. Majoring in criminal Justice at CU, Denver.
- Emily Abbott, University of Northern Colorado. Wishes to use her education to better other people’s lives.
- Lindsay Lenae Broce, Otero Junior College. Will study Business Administration.
- Brittany Corcoran, Pueblo Community College. Wants to graduate from Pueblo Community College with an associate’s degree and then would like to attend Fort Lewis College to obtain a teaching certificate for preschool to third grade.
- Kylie Corcoran, Western State College of Colorado. Currently majoring in Accounting with a goal to become an accountant.
- Kylie Schmidt, Northeastern Junior College. Goals to receive a masters degree in Agricultural Education with a minor in Farm and Ranch Management.

CONGRATULATION TO THESE WINNERS! CWWCA WISHES THEM SUCCESS!

Get Involved!

The CWWCA website received 411 to 1250 page views per month, and an average of 735 page views per month during the 12 month period of April 2008 through March 2009, a 57% increase from the previous 12-month period. The past 18 months of monthly page views and relative increase in website use, by month are shown below.

A total of 131 CWWCA members elected to have their names listed on the CWWCA membership directory to date. There are 23 membership upgrades, bringing revenue of $1,150.

The CWWCA web forum has received very little use.

New copies of the Drillstem are on the website.

The “Special Topics” and “Technical Working Group” features on the website front page have been implemented.

Although the events and news pages have received updates, additional content is appreciated, please send news articles, events and continuing education opportunities to dniemela@bbawater.com.

The NGWA recommends that the CWWCA set up “MySpace,” “Facebook,” and “Twitter” social network pages for Colorado water well contractors. The CWWCA website committee recommends that these additions be implemented if a volunteer can commit to set up and management of these social network pages.
CWWCA Board and Committees
