WEBSITE ADVERTISING

BANNER ADVERTISING
There is a banner advertisement on every page of the website. The advertisement rotates sequentially, so every ad will have equal display time. If the demand for banner advertisements warrants it, additional banners will be incorporated into the site.

One-Year Banner Advertisement: $100.00
If the advertiser is a CWWCA member, this fee also includes a free upgrade of your member directory listing. Banner ads should be 285 pixels wide x 96 pixels high, .jpg format and in landscape orientation.

MEMBER DIRECTORY UPGRADE
CWWCA members may choose to upgrade their listing in the searchable member’s directory.
Upgrading allows your listing to be displayed at the top of searches and sorts. It allows your listing to link to your website. And upgrading allows you to display your logo or picture of your choice with your listing.

One-Year of Directory Upgrade: $50.00
Pictures for the listing should be submitted in .jpg format and should be 225 pixels wide, by 150 pixels high.

CWWCA CALENDAR OF EVENTS

October 6, 2017  CWWCA Board Meeting - Chase Bank Building - Englewood, CO
November 6, 2017  BOE Meeting - Denver, CO
January 10-12, 2018  CWWCA Annual Conference - Denver Marriott Tech Center - Denver, CO
January 12, 2018  CWWCA Board Meeting - Denver Marriott Tech Center - Denver, CO
April 6, 2018  CWWCA Board Meeting - Chase Bank Building - Englewood, CO
July 12-14, 2018  CWWCA Mid-Year Conference - Beaver Run Resort - Breckenridge, CO
Greetings CWWCA Members,

The 2017 Mid-Year Conference wrapped up on July 15th. I want to extend a special thanks to all the presenters, vendors and our staff, who worked so diligently to ensure a smooth and successful conference. One of our speakers who travels to speak at a wide variety of venues shared with me that the CWWCA is among the most well-organized conferences that he has attended. With that, well done to all involved.

The CWWCA is in the preliminary stages of reviewing an opportunity to work more closely with the Colorado Ground Water Association (CGWA). The coordination of some activities between the organizations will allow CWWCA members to have access to a broader spectrum of the industry - project engineers, planners and hydrogeologists to name a few. Relationships developed between members of both organizations potentially provide resources to pursue new opportunities and consolation on existing projects - not to mention access to a wide array of potential speakers for our CE classes. Stay tuned.

The CWWCA continues to seek innovative solutions to compel the State to review and enhance its Water Well Inspection Program to ensure the protection of our ground water resource. Our membership voted by a large majority in our January 2017 Membership Meeting to continue to support a call for enhanced well inspections. Progress is slow when working at the bureaucratic level but we continue our efforts to those ends.

Hope everyone has a safe and productive fall. See you at the Annual.

Sincerely,

Bryan Beckner
2017 CWWCA President

VFD Valves - Silent Checks

Unique Patented Design VFD Check Valves
(Also available in Ductile Iron and Stainless Steel 1” thru 8”)
America’s First Choice

Patented submersible pump check valve for use on variable flow demand (VFD) systems and applications. Standard check valves will “chatter” and be noisy when the system goes to low flow, causing eventual failure. The unique valves are designed to minimize flow losses and hydraulic shocks in the pumping system. The exclusive patented poppet system ensures that the valve smoothly and automatically adjusts to flow changes and is noiseless at even very low flows. Ideal for all applications including non VFD systems.

INSTRUMENTAL TO YOUR SUCCESS

Why should you attend 2017 Groundwater Week?

News
While there are too many to list them all, here are 10 reasons to head to Nashville for 2017 Groundwater Week, the one event that is indeed instrumental to your success!

1. Exhibits. You will have 12 full hours over two days to investigate hundreds of solutions to your challenges in the exhibit hall.
2. Education. You will have the chance to choose from more than 50 hours of educational offerings all designed to help you do your job more efficiently, easily, and cost-effectively.
3. Experts. You will have scores of opportunities to learn from industry experts.
4. CEPs. You can earn your CEPs by attending workshops, industry best suggested practices work sessions, the NGWA Foundation McEllhiney and Darcy lectures, and exploring the trade show floor.
5. Hands-on activity areas. You can improve your skills and learn new ones in the activity areas taking place in the exhibit hall such as drill rig safety and troubleshooting submersible systems.
6. New opportunities. You can gain insight about future trends at offerings such as boosting earnings with aeration systems and next generation water treatment.
7. Appreciation. You will be able to say thanks to NGWA’s many volunteers and congratulate this year’s NGWA award winners.
8. Connect. You will be able to connect with thousands of professionals from all sectors of the groundwater industry in one convenient location.
9. Recharge. You will be able to enjoy some time to relax, rest, and recharge with old friends and new acquaintances at events such as the Franklin Electric Welcome Party and Coffee with NGWA Directors and New CEO.
10. Pay it forward. You may pay it forward to the industry and help the NGWA Foundation at the same time during its annual fundraising auction.

Program lineup
Groundwater Week 2017 is being designed to provide both educational and networking experiences to all who work in the groundwater industry. Every opportunity to maximize the foundations of groundwater science with water supply, resource protection, and remediation will be applied to this premier groundwater event. There will indeed be something for everyone involved in groundwater at some point during this week.

There are optional short courses being held during Groundwater Week.

Introduction to Groundwater Geochemistry Reaction Modeling
December 7-8

Introduction to Statistical Methods for Environmental Monitoring
December 7-8

Practical Considerations for Groundwater Monitoring Well Design, Construction, and Sampling Programs
December 8

For more information got to: http://www.groundwaterweek.com

THE BEST WEEK OF THE YEAR

Groundwater Week is an annual conference featuring education, exhibits, and networking with the industry’s finest from around the world.
Your #1 Source for Goulds & Pentair in Colorado!

Residential pumping products and accessories from Mitchell Lewis & Staver are designed to meet your home and domestic needs— from providing water to your home and keeping basements dry to dealing with water quality problems. We carry the pump solutions that make your turf and irrigation projects a success.

We carry a full line of pumps, motors, controllers, and accessories for residential applications, and we have experts on staff to help you. Our technicians can even help you with testing water, diagnosing water treatment problems, and selecting the best solutions for your particular issue. For our ag & irrigation customers, we will feature a product build center in Denver for all of your turbine and centrifugal pump projects.

Mitchell Lewis & Staver has been in continuous operation since 1882.

the DRILLSTEM 16  FALL 2017
As we near the Labor Day break, we can reflect that it has been a quiet summer for groundwater issues. The Water Resources Review Committee has met twice, and no real substantive groundwater issues have been discussed by the Committee. There are still more meetings scheduled for September and early October, but Senator Sonnenberg (chairman) has not indicated what topics he will set for discussion.

The closest item of discussion was the presentation by newly appointed State Engineer, Kevin Rein. Mr. Rein succeeds former State Engineer Dick Wolfe who has retired. Mr. Rein briefed the committee members on the structure and role of the Division of Water Resources. He was joined at the table by Scott Cutherbertson, Deputy State Engineer, who assisted in the presentation. Mr. Rein neglected to mention the water well inspection program and the existence of the Board of Examiners until Mr. Cutherbertson reminded him. Mr. Rein then added that information to his closing comments.

At the request of the committee, Mr. Rein promised to prepare and distribute an organizational chart of the DWR along with information about the various programs and responsibilities. While we do not plan to make a presentation to the committee this year, we may need to provide the committee with additional information about water well construction and the inspection program should the information supplied by Mr. Rein need to be augmented.

For our part, we continue to advocate for two significant things. First, we continue to advocate for a performance and financial audit of the water well inspection program. We do not think that there has been any wrongdoing or mismanagement of the program and we have high regard for the inspectors who carry out the day-to-day activities of the program. However, we remain concerned that the staff allocated to the program is causing the program to fail. Two inspectors and a chief inspector cannot hope to inspect the more than 5,000 water wells that are constructed each year. Our goal in seeking the State Auditor review is to establish a workforce plan that relates workload with the appropriate number of inspectors to do the job and the resources needed to support those inspectors.

Our initial request which we made directly to the Legislative Audit Committee and the State Auditor was politely kicked back by them. The policy of the committee is to only consider requests that are made by a legislator on that legislator’s official stationery. State Senator Randy Baumgarder (R-Grand Junction) made such a request on behalf the CWWCA board. We have not heard whether the audit will be selected as one that the committee will authorize – they also have staffing restrictions.

The second thing we are advocating for is an official item in the budget for FY 2018-2019 to secure more well inspectors. With the approval of the CWWCA board at our summer meeting, we delivered a formal letter of request to Mr. Bob Randall, executive director of the Department of Natural Resources, and Mr. Rein asking for an increase in the number of inspectors and the establishment of an intermediate goal of completing inspections in at least 50% of the wells constructed in each of the state’s water divisions.

We have not received a reply from Mr. Randall to our request, and we will follow up in the days after Labor Day.

If anyone would like to have a copy of either of the letters, please contact Karie at the office.
Ryan Byers
Safety Management Consultant of Front Range Compliance Addresses Two Topics

The New Definition of a Commercial Motor Vehicle in the State of Colorado. Which is a single vehicle or combination vehicle with a GVWR or GCWR of 16,001 pounds or more in Intrastate Commerce. Interstate Commerce is still 10,001 pounds or more.

The new requirements for recording Hours of Service. As of 12/18/2017 drivers can no longer use a paper log book. Unless specifically excepted. The drivers have to use an Electronic Logging Device (ELD).

The main specific exception to stay out of an ELD is the Short Haul Exception. This allows drivers to use a time card. All points to the exception must be met or the drivers must to do a log book for that day. The driver can have up to 8 days of logging in a 30 day period. More than 8 days requires an ELD.

To assist this process Ryan developed two flow charts to help carriers understand when drivers must complete a log book. Please see the following forms. Please feel free to contact Ryan with questions at 720.951.1184 or ryan@frontrangecompliance.com.

DWR Report

Kevin Rein has been appointed as the new State Engineer following Dick Wolfe’s retirement. 10.5

(Continued on page 23)
been appointed for an additional 4-year term on the BOE.

The Administrative Rules are under review. The goal is to have the revised rules effective January 1, 2018, which will require hearing in November 2017. Comments can be submitted electronically via the DWR website.

The DWR has implemented its new well permit database system. Notification for inspection is randomized for 10% of new wells. However, all Laramie-Fox Hills aquifer, Dakota aquifer, variance and owner-installed wells receive notification for inspection.

The DWR is developing new forms, including well permit applications, well construction reports and pump installation and test reports. The DWR was encouraged to seek contractor input on format of the new forms to improve usability.

Discharge Permitting
There has been confusion regarding CDPHE regulations for contractor discharges. Generally, discharges are included in three categories: well yield test, well drilling, well development/rehabilitation. It was suggested that the CWWCA seek clarification at an upcoming BOE meeting.

Greater CGWA/CWWCA Coordination
CGWA has been submitting lunch programs to the BOE for continuing education credit. CGWA will coordinate with CWWCA to provide notice of upcoming events. CWWCA and CGWA will explore combined programs for the January Annual CWWCA conference.

Well Inspection Program
Joe Meigs and Gene Wagner met with Commissioner Don Brown (Commissioner of Agriculture) on July 11, 2017 regarding funding for the well inspection program. Commissioner Brown was receptive, but didn’t know what he could do to help. Senator Randy Baumgardner has been supportive of the CWWCA’s request for audit of the well inspection program.

Future Topics
DWR update
Well inspection program
CDPHE discharge permitting
2018 BOE Engineer/Geologist Position (requested addition)

Board of Examiners of Water Well and Pump Installation Contractors

September, 2017

The Rules and Regulations for Administration of Licensing, Financial Responsibility, Continuing Education and Remedial Action 2 CCR 402-14 (BOE Administrative Rules) are open for revisions in 2017 and the rulemaking process is nearing the end. The Board of Examiners of Water Well Construction and Pump Installation Contractors (BOE) will be holding a Rulemaking Hearing in November, please read the following information to stay informed.

*Please keep in mind that future dates are subject to change*

- **On or Before September 15, 2017**
  - Board Staff will file Notice of Rulemaking Hearing with Secretary of State
  - Notice and Rules will be published in Colorado Register on September 25th
  - Staff will concurrently publish the Rules on BOE Admin Rulemaking Webpage ([http://water.state.co.us/groundwater/BOE/Pages/RulemakingBOEAdmin.aspx](http://water.state.co.us/groundwater/BOE/Pages/RulemakingBOEAdmin.aspx)) and distribute to BOE Administrative Rulemaking Notification List
- **On or Before October 20, 2017**
  - Submit Notice of Intent to Participate at Rulemaking Hearing
- **On or Before October 27, 2017**
  - Hearing Officer will issue an Order governing participation of parties and individuals at the Rulemaking Hearing
- **On or Before November 2, 2017**
  - Submit written testimony to Board Staff if unable to attend the Hearing
- **November 6, 2017**
  - Rulemaking Hearing will be held at the regularly scheduled BOE Meeting
  - Public rulemaking proceeding, includes testimony from stakeholders, staff, and public
  - Board expects to Adopt the BOE Admin Rules at this meeting

DRILLING DOWN TO WHAT MATTERS
AssuredPartners Teams with Steve Smith and John Bell of VolkBell, along with Dave Wooldridge and Sue Roberts of Front Range Insurance Group

Northern Colorado based agency provides full range of insurance brokerage services

LAKE MARY, FL – July 1, 2017 – AssuredPartners, Inc. is pleased to announce the acquisition of Front Range Insurance Group, LLC of Fort Collins, Colorado along with two divisions of VolkBell to include John Bell’s employee benefits team and Steve Smith’s property and casualty team.

The company provides business and commercial insurance, employee benefits insurance as well as personal insurance brokerage services. The combined organizations and their 28 staff will operate under Front Range Insurance Group going forward and will remain under the leadership of John Bell, Sue Roberts, David Wooldridge and Steve Smith – Principals.

“For over 32 years it has been the goal of our team to make our clients lives easier. We help answer hard questions, find ways to control costs and help make it possible for our clients to run their business knowing we’re working behind the scenes on their behalf,” said Front Range Insurance Group Managing Principal John Bell. “This is an exciting opportunity to join a dynamic regional and national organization that reflects the same values that made us successful. Our clients will continue to work with the consultants and service teams they know and trust. AssuredPartners allows us to further enhance our client focus and services on a local basis while at the same time incorporating our operations into a national platform. Our clients will benefit from the increased support, resources, markets and tools now available to us.”

President and Chief Operating Officer of AssuredPartners, Tom Riley, stated “VolkBell and Front Range Insurance Group are well known and well respected in the Northern Colorado marketplace. We’re pleased to have the strong client relationships and valued employees join us at AssuredPartners.”

For more information about Front Range Insurance Group, please visit: www.frontrangeinsurancegroup.net.

ABOUT ASSUREDPARTNERS, INC
Headquartered in Lake Mary, Florida and led by Jim Henderson and Tom Riley, AssuredPartners, Inc. acquires and invests in insurance brokerage businesses (property and casualty, employee benefits, surety and MGU’s) across the United States and in London. From its founding in March of 2011, AssuredPartners has grown to over $870 million in annualized revenue and continues to be one of the fastest growing insurance brokerage firms in the United States* with over 190 offices in 30 states, Canada and London. Since 2011, AssuredPartners has acquired more than 170 insurance agencies.

the DRILLSTEM FALL 2017
**DRILLER AND/OR PUMP INSTALLER APPRENTICESHIP PROGRAM**

The Colorado Water Well Contractors Association Apprenticeship Program is a voluntary program for CWWCA members, developed to assist individuals that would like to obtain a water well driller license and/or a pump installation license in the state of Colorado. Records will be kept by the CWWCA and available to the applicant to provide proof of experience to the Board of Examiners (BOE) during the license application process.

By the end of each year of apprenticeship the apprentice must attain two continuing education hours. At the end of the apprenticeship, the apprentice must comply with the existing rules for continuing education as set forth in the BOE Rules 2 CCR 402-14 concerning continuing education to obtain a driller’s and/or pump installer’s license. A Continuing Education Form (similar to the one provided to the licensed contractors by the State during the renewal process each year) will be provided to the apprentice at the end of each calendar year so the CE’s earned can be documented.

For full information on this and other CWWCA educational opportunities, go to cwwca.org and look under education.

---

**COLORADO WATER WELL CONTRACTORS ASSOCIATION BUCK LIVELY SCHOLARSHIP PROGRAM**

The Colorado Water Well Contractors Association (CWWCA) Member Scholarship Program is made available to assist and encourage the education of qualified individuals.

**ELIGIBILITY:**
The applicant must be a CWWCA member or sponsored by a CWWCA member.
The applicant must be currently enrolled or planning to enroll in a full time course of study at an accredited two or four year college, university, or vocational/technical school, and who is accepted by the institution during the applied scholarship year.
The applicant must have a high school GPA of 2.5 and maintain a GPA of 2.0 in their course work.
The applicant must not have already received the maximum of five CWWCA scholarship awards.

**HOW TO APPLY:**
The applicant must submit a completed application along with all required attachments (see section 4 of the application) to the CWWCA office or to the Scholarship Committee on or before March 31st.

For full information on this and other CWWCA educational opportunities; Go to CWWCA.org and look under Education.
